DIM	38 x 42 cm

### Packaging

---

Carton size : 47 x 43 x 32 cm

Weight per carton : 9.00 kg

### Customisation

---

- Screen Printing : The most widely used technique. It consists, by the stencil method, of depositing the ink directly on the product. There are as many screens and passages as there are colours in the motif to be reproduced and all colours can be achieved. This technique makes it possible to produce very large quantities. It allows the use of inks with various effects for very different renderings and is adapted to almost all textile supports. The marking of coloured substrates requires an opacifying undercoat called « background white ».
